

COMMERCIAL REAL ESTATE AND JOBSITES

Live Monitored Video Surveillance

Live video monitoring, Doorman24 and mobile security towers. One partner, watching 24/7.

SINCE 1981

THE CHALLENGE

**Guards can't be
everywhere.
Cameras can.**

Office and commercial properties are spread out, with multiple entrances, garages and parking areas. A guard can only be in one place at a time. We turn every camera into a guard, so there are eyes on the entire property.

THE RESULTS

- ✓ Fraction of the cost vs staffing with guards
- ✓ Show tenants a return on their security investment
- ✓ Reduce liability across the property
- ✓ Keep occupants happy and loyal

STATION

LIVE VIDEO MONITORING

Turn every camera into a virtual guard.

AI analytics watch your existing cameras, or cameras we supply, and send real events to live operators who see, talk down and escalate in real time.

- ✓ Perimeter protection
- ✓ Loitering people and vehicles
- ✓ Illegal parking and blocked access
- ✓ Graffiti and vandalism
- ✓ Package room monitoring
- ✓ Live two-way audio talk-down

Works with the cameras you already have, from any manufacturer.

DOORMAN24

A doorman at the door, 24/7.

An intercom with a built-in camera is installed at the front door. When a visitor or courier presses the call button, a live agent at our central station answers.

- ✓ Accept deliveries and announce them to tenants
- ✓ Verify visitors before opening the door
- ✓ Remote access for maintenance and inspections
- ✓ Emergency access for police, fire and EMS
- ✓ No doorman on the payroll

Tenants never miss a package delivery.

MOBILE SECURITY TOWERS

Coverage where there are no cameras.

Solar-powered, live-monitored towers for parking lots, garages, renovations and vacant space. Up and running in days, with no trenching or wiring.

Mast	22 ft crank-up
Video	(4) 4K cameras, 360°
Deterrence	Speaker and blue strobe
Power	400 W solar + batteries
Connectivity	5G cellular / Starlink

Monthly service, no upfront cost.
Deployed within days.

GET STARTED

Let's review your property.

We will review your entrances, cameras and parking areas, and recommend the right mix of live video monitoring, Doorman24 and mobile towers.

- 1 No charge site analysis
- 2 We work with you to design a custom solution
- 3 Live monitoring starts
